limited edition

Satryna is a **small batch artisanal** tequila producer committed to making the **smoothest** tequila in the world. We are as **passionate** about our **exceptional quality** as we are about delivering **ultra luxury** with an **edgy eclectic** individuality. Extraordinary levels of attention to detail is bestowed on each and every **hand crafted** bottle ensuring a truly **incomparable** experience.

STORY

Our story begins over half a century ago in Jalisco, Mexico when the legendary Tequilera Newton created a unique tequila at the behest of their oldest friends, the grand parents of our founder Nitzan.

70 years and three generations later, we decided the spirit deserved to be shared with true aficionados around the world.

And so began a journey that would eventually lead to the advent of Satryna, a small batch, hand-crafted 100% agave tequila unlike any you have experienced before.

INSPIRATION

Satryna Tequila's inspiration and soul is derived from the tradition of the festival of Día De Los Muertos - The Day of The Dead.

It is a celebration to remember and keep alive the spirit of loved ones who have departed and returned to earth on this day.

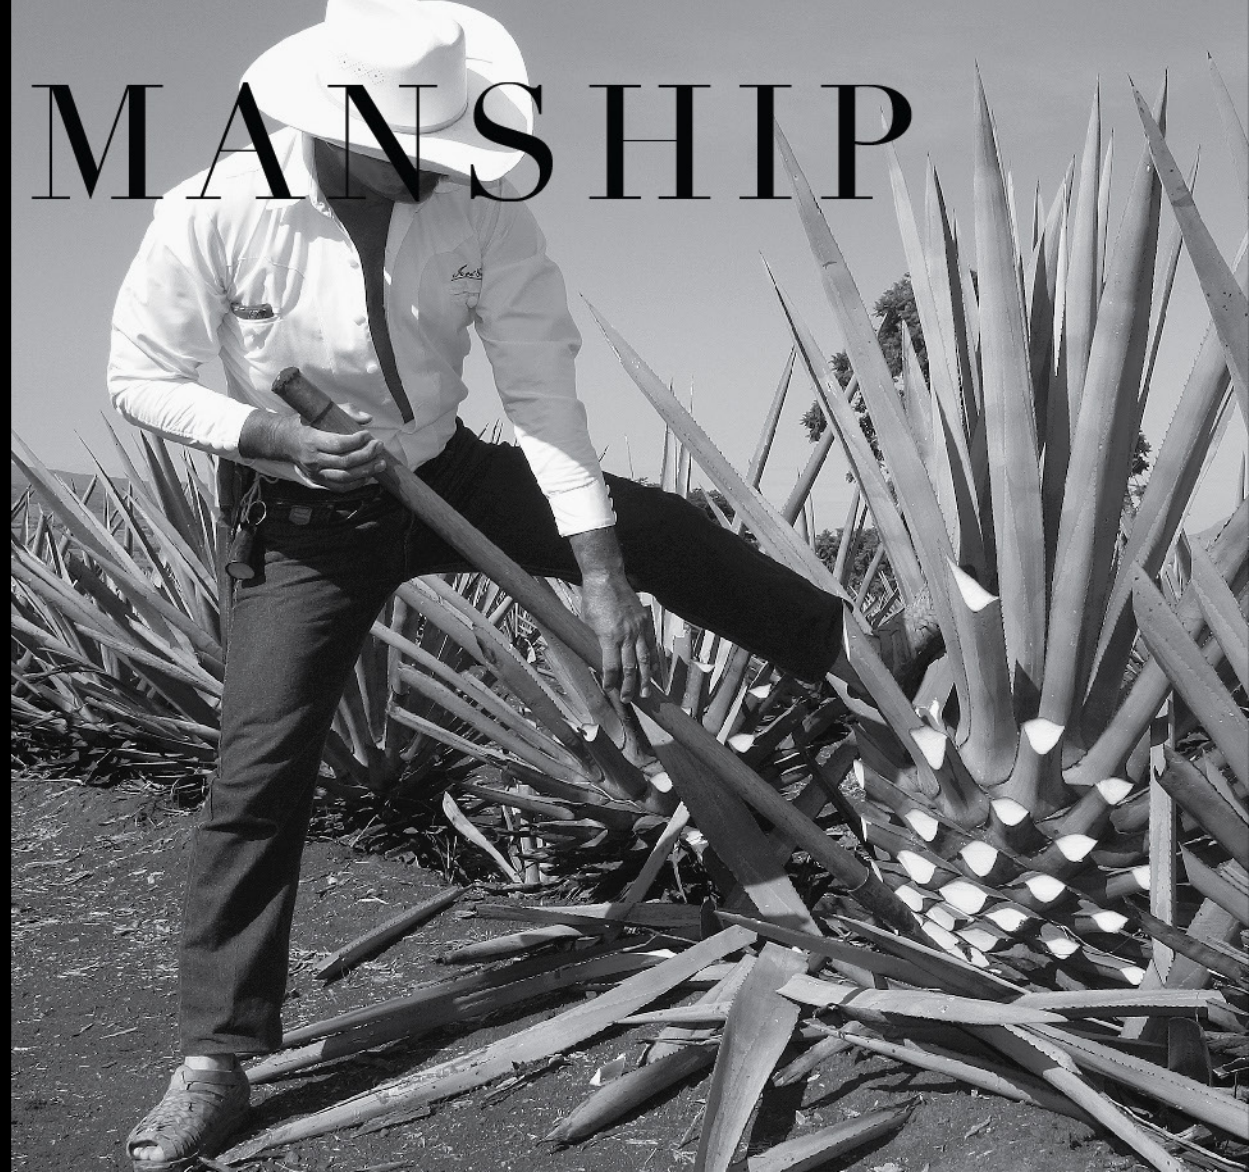

CRAFTSMANSHIP

Satryna's incomparable tequilas are the product of three generations of Mexican craftsmanship and over 70 years of experience.

As it has been done for decades, our tequila is made from the finest and sweetest blue agave sourced from the rich volcanic soil of Jalisco near Guadalajara. Following 12 long years of nurturing, by which time it is ripened to perfection, each hand-selected plant is then carefully harvested.

After being steam cooked for 24 hours and triple distilled, the tequila is then aged in French oak barrels imported from Cognac, and American oak barrels from California.

This unique balance of the centuries old art of tequila making and modern distillation techniques gives Satryna its complex character, purity and distinctive smoothness.

DESIGN

Extraordinary levels of attention to detail is bestowed on each and every handcrafted French Glass decanter decorated with precious metal foil.

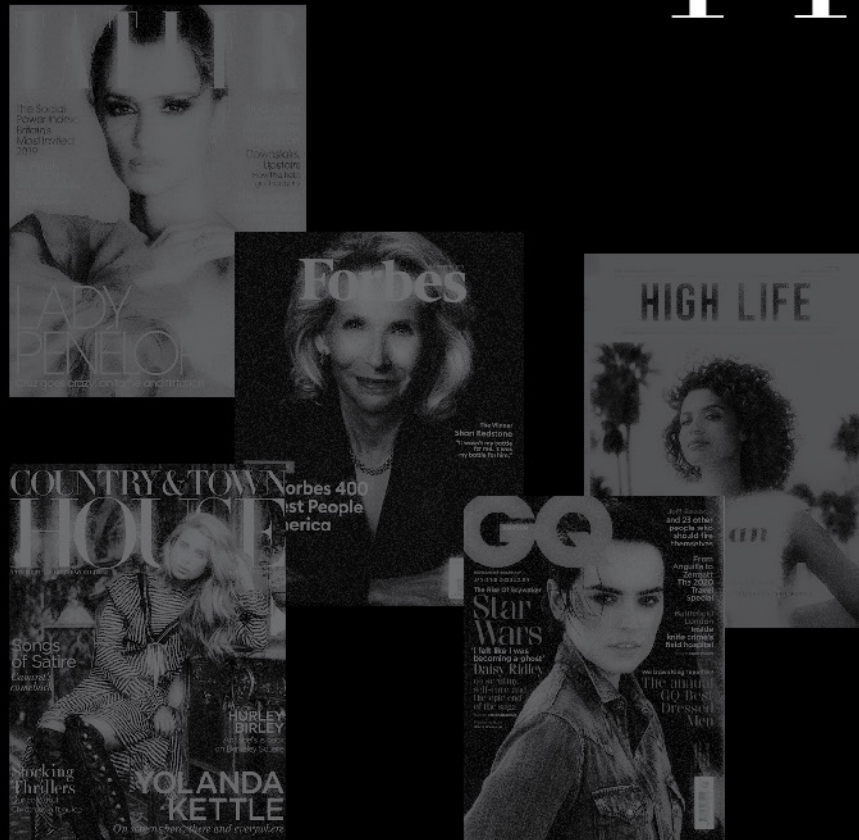

The intricately designed metal sugar skull cap is based on an original art created by master craftsman from Oaxaca.

The neck collars are crafted from zamac in Argentina and the bottle is presented in a beautiful gift box made specially in England.

Every bottle is hand numbered and signed by our Maestro Tequilero.

PRESS

“High fashion like Goyard.”

high life

“Tequila brand steeped in history.”

GQ

“Definition of a smooth and complex sipping tequila.”

Forbes

“Smoothest ultra premium tequila in the world.”
